

# How to use auto translation functions

The Sendai Airport website provides various information including flight information, experience, services, and facilities, which are available at the airport. You can view this information in different languages thanks to the automatic translation feature of your web browser.

\* Please note that the automatic translation feature of each web browser is not created by Sendai Airport's website. Please be mindful that we cannot assist with inquiries regarding this feature.

\* This information is accurate as of October 1, 2023. There may be changes in how it operates. Thank you for your understanding.

## Google Chrome / Microsoft Edge

- 1 Open Google Chrome or Microsoft Edge, then open the Sendai Airport website.

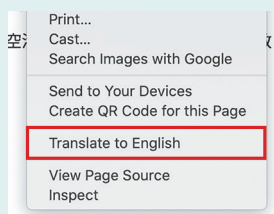

### Example

[総合売店 萩] within the [Shop / Shop and Dine] page

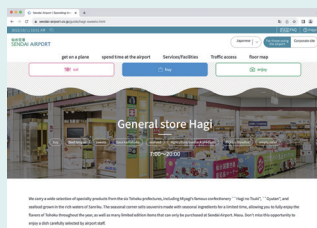

\* The image shows a screen using Google Chrome.

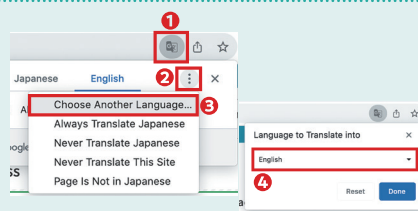

- 2 After right-clicking on the screen, a pop-up menu will appear. Then select [Translate to English].

- 3 The contents of the page will be shown in a selected language.

- 4 If you wish to translate it into a different language, simply click [Choose Another Language] and select a language to translate.

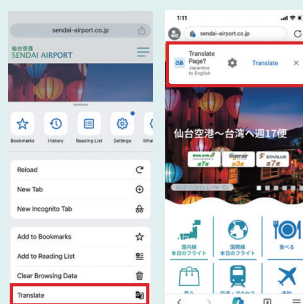

### Using a smart phone (Google Chrome)

Tap [Translate] on the menu on the bottom of the page, then the contents will be shown in translation.

### Using a smart phone (Microsoft Edge)

Tap [Translate] that pops up on the top of the page when you open the Sendai Airport website. Then the contents will be shown in translation.

(if the pop-up disappears, simply go back to the top page and re-read so it will pop-up again)

\* Google Chrome

\* Microsoft Edge

## Safari

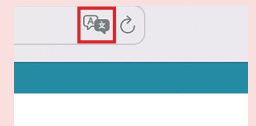

- 1 Open the Sendai Airport website on Safari.

### Example

[総合売店 萩] within the [Shop / Shop and Dine] page

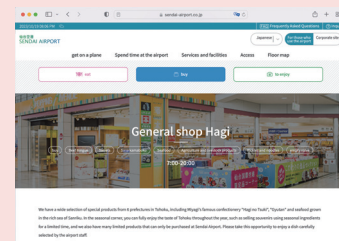

- 2 Click the translation icon on the address bar.

- 3 Select a language of your choice.

- 4 Then the contents of the page will be shown in the language of your choice.

### Using a smartphone

Tap the translation icon on the address bar, then select [Translate the website] or [Translate to English]. Select the language of your choice to translate the contents in the language.

\* ❸ will be shown only when your smartphone has registered multiple languages.
